Setup the Huddle XS 4G LTE Insert SIM

1. Remove the back cover
2. Insert SIM as shown
3. Turn on your Huddle XS 4G LTE by pressing and holding the power key for 2-3 seconds

To charge

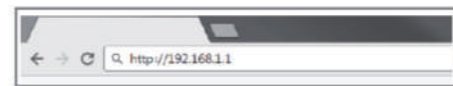

1. Connect your Huddle XS 4G LTE to an electrical outlet using the supplied power adapter. The power light on the Huddle XS 4G LTE will flash red when charging with low battery or will flash green otherwise.
2. Once the battery is fully charged, the power light will turn solid green.

Connecting to your Huddle XS 4G LTE

1. With your computer WiFi turned on, view the list of available WiFi networks
 2. Refer to the back of the device, select **Yes4G Huddle LTE - XXXX** and Key in the WiFi password as stated
- To change WiFi SSID and password, please proceed to the following section

Setup using web browser

1. Enter **http://192.168.1.1** into the address bar while connected to the Huddle XS 4G LTE WiFi hotspot
2. The default username/password is **admin**
3. Follow on-screen instructions to complete the setup

Setup using Yes Device Manager

1. Download "Yes Device Manager" on Google Play or App Store
2. Connect to the WiFi Hotspot of the Huddle XS 4G LTE
3. Launch and enjoy using our app!

Congratulations!

You are now connected to the Yes 4G LTE network
